

Environmental Impact Assessment Report
for the Decommissioning of Units 1 to 4
at Kozloduy Nuclear Power Plant

CHAPTER 10

**DESCRIPTION OF THE INFORMATION
ACQUISITION PROBLEM RELATED TO
THE EIA REPORT DEVELOPMENT**

CONTENTS

10. Description of the information acquisition problems related to EIAR
development 1

10. Description of the information acquisition problems related to EIA-R development

As stated in the provisions of the Contract and in the Client’s Terms of Reference (ToR), State Enterprise RAW (SE RAW) is responsible for the provision of all necessary information and data required for the Environmental Impact Assessment Report (EIA-R) implementation.

During the Kick-off Meeting held on September 8, 2009, the Consultant had submitted to the Client KNPP a list of the requested input data which are needed for the development of the EIA-R for the decommissioning of Units 1-4 at Kozloduy NPP.

This EIA-R is prepared based only and solely on information and data officially submitted by the Client.

In conclusion it can be stated, that the usual problems of obtaining relevant information on some components of the environment are expressed, but they have to be resolved in the process of elaboration of the following revisions of the EIA-R.
